

# the ultimate mowing machine

yahya ibrahim

**A**merica is a terrorist state and Americans are complacent in some of the worst forms of terrorism our Muslim nation has been subjected to. Millions of Muslim lives have been lost to American brutality. It is about time Muslims wake up and payback America what is due to it.

In this section, the OSJ, we give our readers suggestions on how to wage their individual jihad. Here is one idea of how an individual Muslim may do so. It is a simple idea and there is not much involved in its preparation. All that is needed is the willingness to give one's life for Allah.

The implementation of details of this operation should be subject to the security requirements.

The idea is to use a pickup truck as a mowing machine, not to mow grass but mow down the enemies of Allah.

You would need a 4WD pickup truck. The stronger the better. You would then need to weld on steel blades on the front end of the truck. These could be a set of butcher blades or thick sheets of steel. They do not need to be extra sharp because with the speed of the truck at the time of impact, even a blunter edge would slice through bone very easily. You may raise the level of the blades as high as the headlights. That would make the blades strike your targets at the torso level or higher.

Pick your location and timing carefully. Go for the most crowded locations. Narrower spots are also better because it gives less chance for the people to run away. Avoid locations where other vehicles may

intercept you.

To achieve maximum carnage, you need to pick up as much speed as you can while still retaining good control of your vehicle in order to maximize your inertia and be able to strike as many people as possible in your first run. Keep in mind that as soon as people realize what you are up to, they would scatter and run in every direction looking for cover. They would look for areas where the vehicle cannot reach them. Therefore, it is important to study your path of operation beforehand.

The ideal location is a place where there are a maximum number of pedestrians and the least number of vehicles. In fact if you can get through to "pedestrian only" locations that exist in some downtown (city center) areas, that would be fabulous. There are some places that are closed down for vehicles at certain times due to the swarms of people.

If you have access to firearms, carry them with you so that you may use them to finish off your work if your vehicle gets grounded during the attack.

After such an attack, we believe it

would be very difficult to get away safely and without being recognized. Hence, it should be considered a martyrdom operation. It's a one-way road. You keep on fighting until you achieve martyrdom. You start out your day in this world, and by the end of it, you are with Allah.

This idea could be implemented in countries like Israel, the U.S., Britain, Canada, Australia, France, Germany, Denmark, Holland and other countries where the government and public sentiment is in support of the Israeli occupation of Palestine, the American invasion of Afghanistan and Iraq or countries that had a prominent role in the defamation of Muhammad ﷺ. In such countries we may strike at the public at large. As long as they target our non-combatants, we will target theirs.

This is one of many ways to implement this idea. You may modify it and add or subtract to it according to what is suitable for your particular conditions.

If Allah guides your heart to such a great operation please leave behind a note. Tell the world why you did it.
